PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with 3+ years of hands-on experience in designing, developing, and maintaining web applications using Laravel and Vue.js. Adept at building scalable backend APIs, dynamic frontend interfaces, and robust database structures. Strong understanding of modern web development practices, RESTful services, and MVC architecture. Proven ability to collaborate with cross-functional teams, manage multiple projects, and deliver high-quality code in agile environments. Passionate about clean code, performance optimization, and continuous learning in emerging technologies.

EDUCATION:

The University of Peshawar

SEP 2018 -AUG 2022

Bachelor in Computer Science

GPA: 3.5

- **Relevant Course work:** Data Structure, Web Development

SKILLS

Skills: PHP Laravel, Vue Js , JavaScript, Ajax, MySQL, CSS/Bootstrap, GitHub

Certificates: JavaScript & CSS/Bootstrap

WORK EXPERIENCE

Dev Junction

NUST ISLAMABAD

Full Stack Developer

SEP 2023 – Present

- Upgraded legacy Laravel applications to **Laravel 11 and 12**, maintaining backward compatibility while implementing modern structure and best practices for government project (**HEC Pakistan**).
- Design and developed a complete **Accreditation University system** for (**HEC Pakistan**).
- Integrated and maintained **Stripe** for payment processing including advanced features such as **subscription plans** and **webhooks**.
- Built and maintained **real-time features** such as chat and notifications using **Laravel Echo, Pusher**, and **Broadcasting Events**.
- Enabled **PayPal support** directly via **Stripe Dashboard integration**, enhancing multi-payment flexibility.
- Implemented secure user authentication, authorization, and middleware systems.
- Worked on feature-rich dashboards, reusable Vue components, and dynamic frontends with Vue Router.
- Optimized performance through **lazy loading, Eloquent relationships**, and **Laravel caching mechanisms**.
- Build and manage admin dashboard in projects **like Invoice, Medical** etc.
- Collaborated in agile sprints, code reviews.

5D LLC Solutions

Bahria town ISLAMABAD

Junior Backend Developer

FEB 2023-SEP 2023

- Designed and developed a **location-based application** allowing users to **view and manage their presence on an interactive map** using Google Maps API and Laravel backend.
- Built a **job seeker platform** where users can:
 - i. Create accounts and manage profiles
 - ii. **Upload CVs**, add **education and work experience**
 - iii. Apply for jobs through a custom dashboard
- Implemented **user role management**, file uploads, and custom form validations.
- Developed responsive and mobile-friendly frontend layouts using **Blade templates, Bootstrap**, and **custom CSS**.
- Worked closely with designers and project managers to turn client requirements into functional web applications.
- Designed and developed RESTful APIs to support mobile and web applications, ensuring secure and efficient data exchange
- Optimized queries and application code for faster response times and better user experience.

- Assisted in developing small modules and features using **Laravel 9+**, focusing on CRUD operations, routing, and Blade templating.
- Gained hands-on experience in **MVC architecture**, database relationships, and Laravel's Eloquent ORM.
- Worked under senior developers to support feature implementation and bug fixing.
- Participated in code reviews, learned version control with **Git**, and improved coding best practices.
- Built internal tools and admin panels using Bootstrap and jQuery.

HOBBIES

1. **Learning new web technologies**
 - Always try to learn
2. **Reading tech and productivity blogs**
 - Reading blogs and documentation for solving problem and productivity
3. **Developing side projects to improve API design and real-time features**

LANGUAGE

- English Professional proficiency
- Urdu Native
- Pushto
